

AUTOUCOPE distance training program

Training by video-conference with an instructor

Target audience:	Experienced MEP engineers, HVAC and plumbing CAD designers and technicians.
Objectives:	Generate cross-sections from the 2D plan Trainees will learn how to: - Manage AUTOUCOPE settings - Prepare the network to generate a cross-section - Generate a cross-section - Finalise the cross section generated.
Prerequisites:	Current working knowledge of AUTOCAD or similar CAD package, of Microsoft Windows and of using the internet.
Course format:	Private lessons by video conference with an instructor.
How to attend:	First, schedule a time and date with your Tracéocad contact. Then your instructor will send you an invitation to connect in video conference.
Lead times:	From 7 days to 4 weeks.
Prices:	350 € ex. taxes for 1 person maximum
Duration:	2 hours over video-conference.
Contact:	Mélinda Charbonnel, training manager, with Tracéocad's instructors' team.

AUTOUCOPE distance training program

Training by video-conference with an instructor

Duration: 2 hours

Basic settings

- > Floor levels
- > Drawing unit
- > Drawing scale

Preparing to create a cross-section

- > Architectural structure of a building floor
- > Setting architectural floor levels
- > Setting network levels, including network and invert levels
- > Understanding the different types of 2D conduits and bends in AUTOFLUID

The section line

- > Section information
- > Cross-section options

Creating a cross-section

- > Selection
- > Visualisation
- > Positioning

Adjusting the cross-section

- > Conduit connections
- > Corrections using routing commands

AUTOCOUPE distance training program

Training by video-conference with an instructor

Methods and teaching resources

Hands on learning with demonstrations.

Use of the software on concrete cases.

All necessary AUTOFLUID applications are provided for the training.

Additional resources

Course support and files for all exercises are provided for further individual training.

Access to trainees with a handicap

Please inform us of specific needs at the time of preparing the sessions.
